

NEURALINK

NLINK

NLINK SOLUTIONS

Create Natural Solutions to all Digital Needs by Using Our Products with Neuralink chip

Introduction

The Main Goal of Our Team Members is to Develop a Worldwide Human-Based Network (WWH) to Provide Solutions For Human Digital Needs using the Neuralink Chip With Our Upcoming Gadgets. High-scalability and high-privacy Network Secure Access Using only a Wearable Gadget, your brain is the key to your network access Help conserve natural resources due to the use of minimal hardware (the only hardware required is the Neuralink chip with Nlink Gadgets)

A New Way of Communication

For All Human Needs

Despite the Neuralink Chip and the ever-present Communications of Humans, and Our Solutions; We Have Concluded that the Most Accessible, Cost-effective, and least harmful way to build a Decentralized and All-purpose Network is to Use the Power of our Minds.

High Availability and Ease of Use:

All you need to become a Node in Our Network or Use the Service is a Nlink Gadgets With Neuralink Chip!

Build a Hybrid decentralized and all-purpose Network by combining our Gadgets, cloud solutions, and ever-present Communications of Humans:

Our main goal is to create a decentralized global network to connect all humans without the Internet, and by combining brain waves, human instantaneous communication, and cloud solutions.

High-Security and Super-usable:

Do not worry at all, all your daily needs are done just by thinking! Experience a New Level of Security with Biological Encryption.

Mission

The goal of Neuralink is to construct devices that are integrated into the human brain to allow the merger of the brain with technology. To stay up to date, the gadgets will also harmonize with the newest advances in artificial intelligence. These enhancements might increase memory capacity or enable devices to connect with software more quickly.

As Neuralink microchips have power and aim to rule on the technology it becomes necessary to make a place where all products will be easily accessed by the clients. With this, we have the vision to take our part in the technological progress of the world.

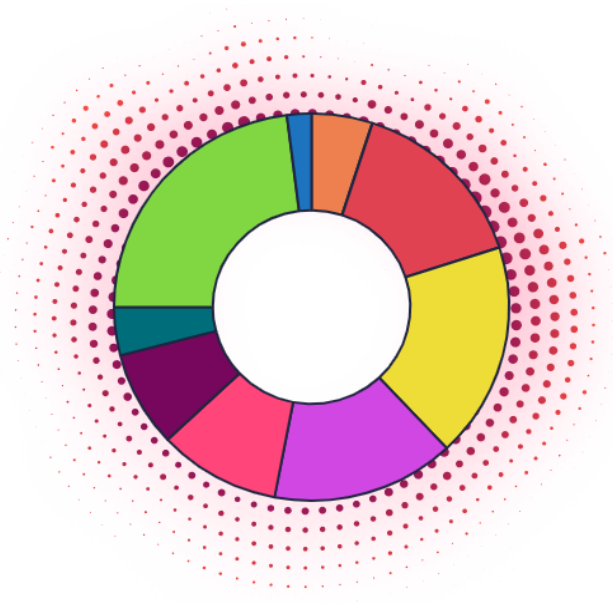

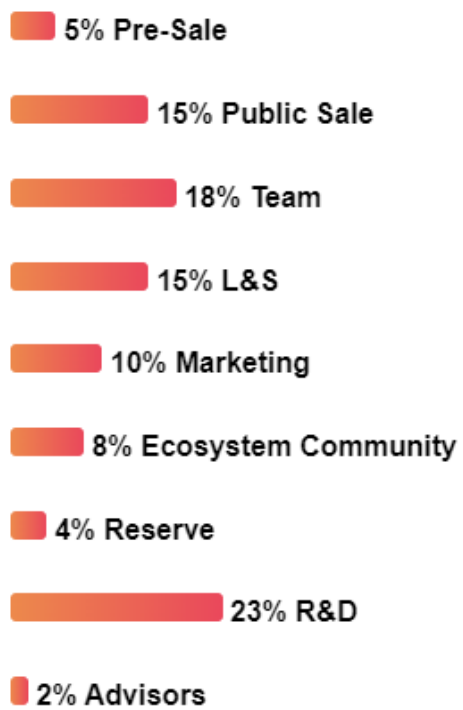

Why Neuralink?

Our aim is quality and equality over quantity to put some balance into the wealth of the world. we do not aim to get big sharks/investors for our project, we want the people who want to grow with us (holders)so that we all get wealthy together.

Tokenomics

Total token supply - 210,000,000,000,000

General description

Until the Release of The Main Network, Nlink Available on the Binance Smart Chain and Fully Comply With Bep-20 standard.

Support of this standard guarantees the compatibility of the token with third-party services (wallets, exchanges, listings, etc.), and provides easy integration.

Pre-Sale Stage 1

Token Name: Neuralink

Ticker Symbol: Nlink

Starting Price: 0.00000001 BNB

Minimum Invest: 0.01 BNB

Max Supply: 210,000,000,000,000

Pre-Sale Stage 2

Starting Price: 0.0000000125 BNB

Minimum Invest: 0.01 BNB

Pre-Sale Stage 3

Starting Price: 0.00000002 BNB

Minimum Invest: 0.01 BNB

Road Map

Phase 1

Launch large-scale social media advertising campaigns
Launch Stage-1 Pre-Sell.
(1 bnb = 100,000,000 Nlink)

Phase 3

Launch Stage-3 Pre-Sell, Launch Airdrop
(1 bnb = 70,000,000 Nlink)

Phase 5

Start the listing Process
Coingecko, Coin MarketCap Launch Stake Pools.

Phase 7

Introducing the first version of our Wearable Gadgets.
Complete introduction of Brainet.

Phase 9

Delivery of pre-sold Wearable Gadgets
Launch Brainet

Phase 2

Launch Stage-2 Pre-Sell
(1 bnb = 90,000,000 Nlink)

Phase 4

Start Pools & Liquidity
PancakeSwap, SushiSwap, dodo Dex
BurgerSwap, BakerySwap,
Biswap, ApeSwap

Phase 6

Start the listing process in Exchanges

Phase 8

Testnet. Start Pre-sale Wearable Gadgets
Launch large-scale social media advertising campaigns.

Frequently Asked Questions

1. Who are you?

We are a team of developers and engineers who specifically combine technology with real-life with the complete security and privacy that every human being needs.

Using the knowledge and creativity of our team in this field and the technologies we use for our products, I have no doubt that the future of this project will change lives.

2. Are you the same Neuralink company owned by Elon Musk?

No, the only reason our name is similar is that our products complement the Neuralink chip.

3. How to buy Nlink Token?

You can buy it from our website:

<https://www.nlink.link>

Conclusion

The Nlink Token community started with the seeds of an idea. What could happen with no centralized team, no funding, and no direct leadership? Could decentralization actually work? Could we follow the perfect storm of digital currencies, like BTC or DOGE, except perpetuate something that is fully community-driven, instead?

This is the beginning of a new era for decentralized communities. When the time is right (because good things can't be rushed), NEURALINK Token will be the crucial point of contact between the decentralized world and global communities, allowing us to actualize our vision of the widespread adoption of cryptocurrency, We would like to say thank you to each and every one of you. Without your participation, none of this would be possible.

It's time for us to begin
